

Rishin S Pradeep

Senior Data Architect

Bengaluru, India | Remote US contracts | 9+ years (June 2017-present)

talktorishin94@gmail.com | github.com/Rishin1994 | rishinspradeep.vercel.app

SUMMARY

Senior Data Architect available for remote US contracts. Makes architecture decisions and implements them - migrations, FinOps, governed dbt estates, and platform leadership. No handoff gap between strategy and code.

EXPERIENCE

Quantiphi - Senior Data Architect

08/2025 - Present

- Led architecture for Fortune-scale CRM/SaaS migration programs onto Snowflake with Data Vault 2.0 patterns.

Tredence - Data Architect

12/2021 - 12/2024

- Governed 350+ dbt models into layered staging -> intermediate -> marts architecture with CI test gates.

Infosys - Data Engineer to Senior

06/2017 - 12/2021

- Modernized enterprise finance warehouses on Azure Synapse with distribution-aware models and ADF ingestion.

SELECTED OUTCOMES

- 10B+ records migrated with zero reporting blackout (CRM / SaaS to Snowflake).

CORE STACK

Snowflake | dbt | Databricks | Azure | Data Vault 2.0 | PySpark | Airflow | Python | SQL | Terraform | GitHub Actions

ENGAGEMENT

Available as an independent contractor for remote US work. Architecture decisions and hands-on delivery in the same engagement. Weekly written increments. US-hours overlap from Bengaluru. W-8BEN / tax paperwork on request.
